Projects

1) Budget Cars (Used Car selling website) – [GitHub \(client\)](#) | [GitHub \(server\)](#) | [Live Site](#)

- There is a dashboard of three types of authorization. Users can open accounts as buyers and sellers.
- A seller can add products and manage his products. Admin has the power to manage all sellers and buyers.
- There is a payment system using stripe. After booking any product, buyers can pay using their card.
- **Used Technology**: React JS, Tailwind CSS, Node JS, Firebase Authentication, MongoDB

2) Lara Cipton (A Life Coach and Psychologist) – [GitHub \(client\)](#) | [GitHub \(server\)](#) | [Live Site](#)

- A website of an individual psychologist who offers some services. There are service details routes for every single service. You can visit all the service details and reviews of people without creating any account.
- But if you want to make any review and book any service You have to create an account first.
- **Used Technology**: React JS, Tailwind CSS, Node JS, Firebase Authentication, MongoDB

3) Learning Bee (A Learning Platform) – [GitHub \(client\)](#) | [GitHub \(server\)](#) | [Live Site](#)

- Provide some premium courses for the knowledge hunters. Anyone can visit the courses.
- To visit the details you have to create an account. After logging in you can buy them as your choice.
- Check the blog page to know more and the FAQ route for some frequently asked questions.
- **Used Technology**: React JS, Tailwind CSS, Node JS, Express JS, Firebase Authentication.

4) Quiz Master's (A Learning Platform) – [GitHub \(client\)](#) | [Live Site](#)

- A Quiz test website, there are some different topics to test your skill on the relevant topic.
- To start a quiz you have to choose a specific topic from the select section. Then click on the start button.
- On the quiz page at the top right side, you will see how many answers you are clicking right or wrong.
- **Used Technology**: React JS, React routing, Tailwind CSS
